product designer | ux engineering & design systems

18 years of experience in interaction design, product design, user research, & front-end development. I design & build content platforms, design systems, & multi-platform experiences for clients.

experience

Lone Rock Point – Remote
Director of UX Engineering (2024-Present), Senior UX Contractor (2023-2024)
Lead product & UX design for public sector clients, including NASA. Established the agency's Lean UX process for discovery & design, & managed UX contractors.

Front-end development & UX implementation for NASA+ streaming platform, supplying content to web, mobile, & TV apps. Created new user flows based on original designs.

Product owner & lead product designer for CivicPress, the agency's WordPress theme platform. Used AI to streamline documentation, design system, & client updates.

Designed & built WordPress themes, blocks, & components. Reviewed code for accessibility & UX quality.

Marktime Media – Remote
Independent UX Design Strategist & WordPress Developer (2008-2025)
Designed, developed, and managed client projects as an independent design & development contractor, both as a solo practice & alongside agency teams.

Embedded Enterprise Contracts
Pivot Interactives/Discovery Education (2020-2023): Lead product designer on a virtual science lab platform. Led user research that shifted the product roadmap. Designed teacher dashboards, autograding UI, & advanced filtering. Implemented standardized token & component library.

Target (2017-2022): Lead product designer for an exclusive community mobile app with a desktop admin platform. Worked within product leadership to upgrade the product from experimental to enterprise. Designed internal reporting tools for marketing teams.

Earlier Experience
Designer, Richter Studios (2008-2009)
Design internships, Purdue Marketing Communications & Ciulla Associates (2007-2008)

community

AIGA Minnesota – Director of Technology 2017-2021; Committee Chair 2015-2017
WordPress – 5x WordCamp Conference Organizer; 50+ Keynote & Technical Talks

education

Purdue University – West Lafayette, IN
BA Visual Communications Design (2008), Minors in Psychology & Sociology
